Job Summary

We are seeking an experienced Next.js developer to join our development team. You'll collaborate with UX/UI designers, back-end developers, and project managers to deliver high-quality, scalable, and effective modern websites. The ideal candidate will possess strong technical skills in front-end development, with the ability to contribute to back-end tasks being a plus.

Qualifications:

Required:

- Minimum 5 years of experience as a Next.js and React developer.
- Expertise in HTML, CSS, JS, with a strong focus on usability, responsive designs and accessibility standards.
- Experience with Git and version control workflows.
- Strong verbal and written communication skills, with the ability to write clear technical documentation.

Preferred:

- Experience collaborating with UX designers via Figma.
- Experience with modern deployment platforms such as Vercel
- Experience with Tailwind and Shadcn.
- Experience with GraphQL
- Experience with TypeScript
- Experience with front-end testing platforms such as Cypress or Selenium.
- Familiarity with Azure DevOps and agile project management methodologies.
- Experience with Sitecore CMS.

Key Responsibilities:

- Project Collaboration: Work closely with back-end developers, UX/UI designers, business analysts, and project managers to gather requirements and deliver front-end solutions using Next.js.

- Code Quality: Follow industry best practices for coding, testing, and deployment while ensuring adherence to security and performance standards.
- Documentation: Create and maintain documentation including technical requirements, configuration details, and end-user guides to ensure clarity in the development processes.

Benefits:

- Flexible work schedule
- Remote work
- Competitive compensation
